

UDX-4K32 / 3chip DLP Projector by Barco

Features

- 3-Chip DLP™ Laser projector features 4K UHD resolution and 31,000 lumens light output.
- Laser phosphor light source designed with a long lifetime and high reliability delivers high quality and resolution.
- Constant Light Output (CLO) functionality can provide constant brightness and color over time.
- Enables to project toward any direction and various objects such as ceiling or curved surface.

Specification

DLP Chip panel size	: 0.9 inch
Display method	: 4K UHD 3-chip DLP digital projector
Resolution	: 3840 x 2400(4K UHD)/ 2560 x 1600(native)
Brightness	: 31,000lm
AC Power Voltage	: 200V, 2.9kVA
Input	: SDI, HDMI, DisplayPort
Dimension (W x H x D)	: 844 x 463 x 1,019mm (Incl. frame)
Weight	: 115kg (Not incl. lens)
Operation temp	: 0-40 degrees
